

The DSIDC Education Programme 2018

Foundation in Dementia Care (1 day)

Purpose

To provide basic knowledge and understanding of dementia and to facilitate the development of skills in a person centred philosophy of care. This workshop is aimed at health care staff with no prior dementia training.

Learning Outcomes

At the end of this course the participants will be able to:

- List the main types of dementia and describe their general characteristics.
- Describe and discuss the implications of a person-centred philosophy of care.
- Understand the importance of life story work and activity-focused care.

Dates for 2018

21st February - 2nd May - 26th September - 21st November

Responsive Behaviours (1 day)

Purpose

To provide a structured approach to meeting the needs of the person with behaviours which staff may find challenging.

Learning outcomes

At the end of this course, the participants will be able to:

- Discuss the concept of behaviours that challenge.
- Develop a structured approach to manage such behaviours.
- Relate how the social psychology of the care environment impacts on the quality of life of the person with dementia.

Dates for 2018

7th March and 17th October

Course Fees and Educational Requirements

€65.00 per day for courses attended on site at the DSIDC an administration charge €20 will be deducted from any refunds in the event of cancellations. Training provided off site is charged at a flat fee of €780 per day. Please contact the DSIDC for availability and cancellation charges.

Lifestory and Activity in Dementia Care (2 days)

Purpose

To develop knowledge and skills to record life stories and design activities

Learning Outcomes

At the end of this course the participants will be able to:

- Relate the importance of life story work and activities to quality of life
- Describe various ways of collecting life story information
- Explore the use of various types of activities
- Design and present an activity for a person with a dementia
