

Education Programme 2023

We are currently undertaking a complete redesign of our educational offering for 2023.

We aim to keep pace with current and emerging trends in the area of dementia care and the changes in learning preferences. This will include new topics as well as more flexible learning approaches in the form of classroom based, E-learning and blended learning. As soon as we have finalised our education programme for 2023, we will post them on our website and will advertise this across our social media platforms. If in the meantime you or your organisation have any requests, please do not hesitate to reach out to us in the DSiDC and we will endeavor to cater for your educational needs.
